| Measured / prepared | Not established / not performed |
| --- | --- |
| Prior FID / KID referenced; NOT recomputed | Human anatomy / artifact labels |
| Unchanged detector flags and candidate positions | Thyroid ROI / future-year truth |
| Paired technical geometry 860-patient bootstrap | Clinician medical authenticity |
| Fixed private panels / cards prepared only | New prediction benefit / Test |

Feature proximity, structure visibility and prediction utility are distinct endpoints.
